CALIFORNIA.

ASSESSED VALUATION.

The assessment of property is made annually as of the first Monday of March. Such assessment includes "all property not exempt under the laws of the United States, excepting growing crops, property used exclusively for public schools, and such as may belong to the United States, the state, or to any county or municipal corporation within the state". The term "property" includes, under a provision of the political code, "moneys, credits, bonds, stocks, dues, franchises, and all other matters and things, real, personal, and mixed, capable of private ownership". The local assessors assess all classes of property, except the franchise, roadway, roadbed, rails, and rolling stock of railroads operated in more than one county, which are assessed by the state board of equalization and apportioned to the several counties, cities, towns, and districts.

The board of supervisors of each county, constituting the county board of equalization, annually examines the assessment books and equalizes the assessment of property. The state board of equalization, consisting of the controller and 4 other members, elected, 1 from each of the 4 congressional districts by the qualified electors thereof, besides assessing and apportioning the value of railroad property, as above stated, annually examines and equalizes the valuation of the property of the several counties, and certifies the result of its action to the several county auditors.

Section 3671 of the political code provides that the assessment thus equalized shall be the only basis of taxation for the county, or any subdivision thereof, except in incorporated cities and towns, and it may also be taken as such basis in those places when the proper authorities so elect. The city and town assessments herein separately shown, are as reported by the municipal officers for 1890, and are possibly, in a very few cases, those for municipal taxation only. Great care has been taken, however, to secure uniformity in the returns, and it is believed that all the assessments herein shown are those for 1890, equalized by the county and state boards for county taxation.

The railroad property as assessed by the state board of 1890, and included herein with personal property, amounts to \$40,198,652.

AD VALOREM TAXATION.

The taxation herein shown is that levied upon the assessment of 1890 and includes all the ad valorem taxes levied in the state.

The tax levy for state purposes is annually fixed by the state board of equalization at such an ad valorem rate as, after allowing 12 per cent for delinquencies in and cost of collection, will raise the total amount

ASSESSED VALUATION AND AD VALOREM TAXATION.

111

determined by the legislature for the year given. The state rate for 1890, herein reported, is 58 cents upon each \$100 of valuation, and is fixed by the board to raise:

For the general fund	\$3,199,040
For the school fund	1,893,500
For the grammar school course fund	75,000
For the interest and sinking fund	200,000
For the special Mendocino Insane Asylum fund	175,000
Total	5,542,540

Of the above rate, 20.2 cents is reported as the rate specially assigned by the board to public school purposes. The state and state school taxation herein reported for 1890 is therefore computed at the rates of 37.8 cents and 20.2 cents, respectively.

The county levies taxes for general, road, and public school purposes, that portion of the levy for road purposes applying, however, only to property outside of incorporated cities and towns; therefore in a majority of the counties there are 2 rates of taxation, and these are denominated "inside" and "outside".

Under a law approved March 7, 1887, entitled "An act to provide for the organization and government of irrigation districts, and to provide for the acquisition of water and other property, and for the distribution of water thereby for irrigation purposes", a number of irrigation districts have recently been formed. Included in their powers under the law is that of taxation of the real estate within their limits for the purpose of defraying the expenses of organization, and for the care, operation, management, repair, and improvement of canals and works completed and in use, including salaries of officers and employés, and for the payment of principal and interest of district bonds. The districts are not necessarily coextensive with other civil or political divisions, several being known to include land situated in 2 or more counties, and it is found impracticable to report their valuations separately. Such districts as levied taxation in 1890 are herein reported by name with the amount of district taxes entered as a municipal levy.

The road poll taxes levied by the boards of supervisors of counties and poll taxes levied for the state school fund are not herein included. The latter amounted to \$362,125 in 1890.

The valuation of the state and of the several counties is as reported by the state controller in his printed report for 1890, supplemented by returns to this office from the county authorities. The valuations of the municipalities and the taxation for all county and local purposes are as shown by special reports furnished to this office by the county and local officers.

g Includes \$4,925 city school tax.

COLORADO.

ASSESSED VALUATION.

The assessment of all taxable property is made annually as of May 1, and includes real estate, personal property and bonds, stocks, money, and credits, subject to the following specified exemptions: real and personal property of the United States, state, counties, cities, towns, and other municipal corporations, and public libraries; lots, with the buildings thereon, if such buildings are used solely and exclusively for religious worship, for schools, or for strictly charitable purposes; cemeteries not used or held for private or corporate profit, and ditches, canals, and flumes owned and used by individuals or corporations for irrigating lands owned by such individuals or corporations so long as they shall be owned and used exclusively for such purpose.

The assessment of all property, except that of railroad, telegraph, telephone, and sleeping or palace car companies, is made by the county assessor. Every person owning or having charge of property in the state subject to taxation is required to make out and deliver under oath to the county assessor, on or before the 20th day of May in each year, a correct list thereof in itemized form, as prescribed by law.

On the first Monday of April, annually, the state board of equalization, composed of the governor, secretary, auditor, treasurer, and attorney general, meet for the purpose of assessing all property owned, used, or controlled by railroad, telegraph, and sleeping or palace car companies, except lots or parcels of real estate owned by railroads within each county and improvements thereon, and except depots, machine shops, and other improved property connected with such roads, which are taxed in the county where situated. On completion of the assessment, the action of the board is certified to the several county clerks, in order that the valuations fixed may be included in the abstracts, and properly credited to the several municipal corporations for taxation the same as other property.

The law provides that all property and all things taxable shall be assessed at full cash value.

The county commissioners of each county constitute a board of equalization for the correction and completion of the assessment rolls for their respective counties. The board meets in July, annually, and has the power to supply omissions in the abstract, and, for the purpose of equalizing the valuations, may increase, diminish, or otherwise alter and correct any assessment, subject to the right of any party aggrieved thereby to be heard.

A state board of equalization also meets in September, in each year, for the purpose of examining and equalizing the assessments in the several counties, and on such examination may increase or diminish the valuation of any kind, class, or grade of property in any county, as much as in their judgment may be necessary to produce a fair and just valuation between all the different counties, provided, however, the aggregate valuation of all the counties shall not be reduced below the aggregate as returned by the county assessors.

On or before the 20th day of September, annually, the board completes its equalization, and through the auditor of state transmits to the clerk of each county a statement of the changes, if any, in the assessments.

Upon the assessments thus equalized all ad valorem taxation within the state is levied.

The assessment herein reported is that of May 1, 1890, as subsequently equalized by the county and state boards.

AD VALOREM TAXATION.

The taxation herein reported is that levied for 1890, and includes all the ad valorem taxation levied in the state. The state tax rate of 4 mills on the dollar produced the sum of \$883,070, an amount slightly in excess of the actual calculation at the rate named, and was specifically divided and appropriated as follows:

General revenue.....	\$537,551
Mute and blind institute.....	44,109
University	44,109
Agricultural college	44,109
School of mines.....	44,109
Insane asylum	44,108
Stock inspection.....	14,703
Capitol building.....	110,272

In addition to the ad valorem state tax, a poll tax of \$1 is levied for the state military fund, producing in 1890 the sum of \$58,682, which sum is not included herein. There is no state school tax.

The county levies taxation for general purposes, including the support of the poor and road purposes, and for common school purposes.

In addition to the county ad valorem taxation, a poll tax not exceeding \$1 is levied by the county commissioners for such purposes as they may determine. The amount of such poll taxes levied in 1890 has not been reported to this office.

The city and town taxes are levied by the city council and board of trustees, respectively, and are collected like all other taxes by the county treasurer.

All taxation for common school purposes is levied by the county and school district.

The aggregate assessment of the state and of each county and the taxation for state purposes have been compiled from the reports of the auditor of state, the assessment of all minor divisions and the taxation for all county and local purposes from special reports furnished to this office from county, school, and municipal authorities.

CONNECTICUT.

ASSESSED VALUATION.

A general assessment of the taxable real estate and personal property is made October 1, annually, by the local assessors, and includes dwelling houses with the buildings and lots appurtenant thereto, not exceeding 2 acres, and mills, stores, distilleries, buildings used for manufacturing purposes, and fisheries and property used in fish pounds, designated and set out according to law, to be set in the list at their present true and actual valuation; lands and separate lots, except house lots, to be set in the list at their average present and actual valuation by the acre; quarries, mines, and ore beds, whether owned in fee or leased, to be set in the list separately at their present true and actual valuation, and, if owned by a corporation, the whole stock, property, and franchise to be set in the list of the town where such quarry, mine, or ore bed is located; notes, bonds and stocks (not issued by the United States), moneys, credits, choses in action, and all vessels (except registered and enrolled sailing vessels which are assessed at a valuation equal to their net earnings), goods, chattels or effects, or any interest therein to be listed at their then actual valuation.

Among the most important exemptions from taxation are the following: property belonging to the United States or the state; buildings with their appurtenances belonging to any county, town, city, or borough; buildings exclusively occupied as colleges, academies, churches, public schoolhouses, or infirmaries; parsonages of any ecclesiastical society, or public or charitable institution, subject to certain conditions; cemeteries; household furniture to the value of \$500; farming and mechanics' tools and fishing apparatus to the value of \$200; libraries, clothing, fuel, stock, or property of every incorporated agricultural society; bonds in the hands of the holders thereof issued by any city or town in aid of the construction of certain railroads; the funds and estate granted or given to the president and fellows of Yale college, Trinity college, or Wesleyan university, and certain personal property of church and ecclesiastical societies.

In addition to these exemptions and others of minor importance, provided for in the general statutes, the legislature of 1889 enacted that any person may take or send to the office of the treasurer of the state any bond, note, or other chose in action, and may pay to the state a tax of 1 per cent on the face amount thereof for 5 years, or at the option of such person for a greater or less number of years at the same rate, and the treasurer shall thereupon indorse upon said bond, note, or other chose in action that the same is exempted from all taxation for the period for which the tax to the state has thus been paid.

It is claimed by the authorities of several towns, especially Stonington, that the last named provision has very materially reduced the local assessment of personal property.

A board of relief for each town meets in the January subsequent to each annual assessment, and hears persons claiming to be aggrieved by the action of the assessors and determines such appeals, adjusting and equalizing the assessment list as a basis for the tax levy.

The treasurer and controller of the state constitute the state board of equalization. This board meets annually in the March subsequent to the local assessment, and adjusts and equalizes such assessment as a basis upon which state taxes are imposed.

The assessment herein reported is that locally made and adjusted as of October 1, 1889, and returned to the controller's office by the clerks of the several towns.

AD VALOREM TAXATION.

A state tax of 1 mill on the dollar was imposed by the general assembly at its January session, 1889, upon the grand list of October 1, 1889, upon which all levies herein reported were made, but under a provision of the resolution the state treasurer suspended its collection, there being no necessity for the levy.

There is no state or county school tax. In 5 of the counties no county tax was levied. The state, however, appropriated for school purposes and distributed to the several towns in 1890 from its general revenue \$241,862.

The levy for schools as reported includes amounts appropriated by the several towns, and the levies by the school districts.

Owing to the complexity of the local government in this state the town has necessarily been taken as a unit both of assessment and taxation, and consequently the figures for a town include those for any village, borough, or city embraced within the town limit.

With the exception of the figures for school district taxation, which were taken from the report of the state board of education, the taxation statistics have been obtained by direct correspondence with the several towns, cities, and boroughs.

DELAWARE.

ASSESSED VALUATION.

All real and personal property in the state is liable to taxation, with the following exemptions: property belonging to the United States, to the state or county, to any church or religious society, college or school, or to any corporation for charitable uses; provisions necessary for the use of the owner and his family for the year (excluding live stock); farming utensils; working tools of mechanics or manufacturers constantly employed in their business; the implements of a person's trade or profession; stock on hand of a manufacturer or tradesman; household furniture, other than plate; grain and other produce of land; wearing apparel; ready money; goods, works, and merchandise imported, and vessels trading from any port of the United States. The property of manufacturing industries is also exempt for a certain limited period.

A general assessment is made every 4 years, but the assessors annually assess new personal property brought into the "hundred", new leases, new ground rents, any real property before omitted, and personal property acquired by bequest. The returns made by the assessors with such corrections as the levy court shall make are conclusive.

The assessment herein reported is taken from the report of the auditor of accounts for the year ending December 31, 1890, but the division as between personal and real estate was estimated by this office for the counties of Newcastle and Sussex, no record thereof being kept by county officers.

AD VALOREM TAXATION.

Railroads are taxed on their capital and earnings, but it would seem that on buildings and land outside the right of way ad valorem taxes are imposed for local purposes.

No ad valorem state tax was levied in 1890. The tax rate for counties was obtained from the auditor's report, but the minor division and school tax from reports specially made to this office.

a The totals of Milford town in Kent and Sussex counties are as reported; the division as between the two counties is estimated by this office.

b Estimated.

c The valuation of Wilmington for city purposes is \$33,500,000, all real estate; personal property not taxed for city purposes.

DISTRICT OF COLUMBIA.

The assessed valuation and ad valorem taxation of the District for 1890 is thus classified by the auditor:

STATEMENT OF THE ASSESSED VALUE OF THE TAXABLE REAL ESTATE OF THE DISTRICT OF COLUMBIA ON JUNE 30, 1890.

Washington:

Taxable on land	\$64,381,519
Taxable on improvements	58,728,700

Georgetown:

Taxable on land	2,699,976
Taxable on improvements	2,851,000

5,550,976.00

ASSESSED VALUATION AND AD VALOREM TAXATION.

121

County:					
Taxable at \$1.50 on land.....	\$6,459,440				
Taxable at \$1.50 on improvements.....	2,588,600				
	<u>3,020,206</u>				
Taxable at \$1 on land.....	3,020,206				
Taxable at \$1 on improvements.....	880,450				
	<u>3,900,656.00</u>				
Total real.....					141,609,891.00
Personal property:					
Washington.....	11,005,402				
Georgetown.....	568,858				
County.....	123,390				
	<u>11,697,650.00</u>				
Total assessed value of real and personal property in the District of Columbia on June 30, 1890.....					153,307,541.00
AMOUNT OF TAX FOR 1890-1891.					
Washington, \$123,110,219, at \$1.50.....					1,846,633.29
Georgetown, \$5,550,976, at \$1.50.....					83,264.64
County, \$9,048,040, at \$1.50.....					135,720.60
County, \$3,900,656, at \$1.....					39,006.56
Total real estate tax.....					2,104,645.09
Personal, \$11,697,650, at \$1.50.....					175,461.75
Total real and personal tax.....					2,280,109.84

The real property exempt from taxation is estimated to have a value of little, if any, less than \$140,867,902, mostly owned and occupied by the national government.

ASSESSED VALUATION OF PROPERTY TAXED AND AD VALOREM TAXATION, IN DETAIL: 1890.

a One-half of the total appropriation; the other half is derived from the revenue from the United States government.

FLORIDA.

ASSESSED VALUATION.

Under the provisions of an act passed by the legislature and approved June 13, 1887, the assessment of all taxables is made annually as of the first day of January by the county assessors or assistant assessors. The assessment includes all real estate and personal property and money, credits, and investments subject to the following express exemptions: property, real and personal, of the United States and state; public property of the several counties, cities, villages, towns, and school districts used or intended for public purposes, except lands bid off for taxes; property of all literary, benevolent, charitable, and scientific institutions within the state actually occupied and used by them solely for the purposes for which they are organized, except property which is rented, and the rents, issues, and profits used only by such institutions, and property held by them as an investment or for speculation; houses of public worship, and the lots on which they are situated, and the pews and furniture therein, provided such houses shall not be rented for any other than school purposes; every parsonage and all burying grounds, tombs, and rights of burial; public libraries, and the real and personal property belonging to and connected with the same not held for rent, profit, or speculation; property, real and personal, held by any agricultural society in the state, and used exclusively for its meetings or exhibitions, and property belonging to any agricultural society in the state, and used exclusively for its meetings or exhibitions, and property to the value of \$200 to every widow dependent upon her own exertions, and having a family dependent upon her for support, and to every person who has lost a limb, or been disabled in war or by misfortune to such an extent as to disqualify him from the performance of manual labor.

Each property owner is required to list, under oath, his personal property at its full cash value. All taxable personal property which is not thus listed, and all real estate, is required to be appraised by the assessor at its full cash value.

Railroad property, including rights of way, roadbed, side and main tracks within the state, locomotive engines, passenger, freight, platform, construction, and other cars and appurtenances, and telegraph lines in the state, including properties, rights, and franchises, are required to be annually returned, under oath, by the companies owning or controlling them, at their true value, to the controller of the state. In the absence of such return, or if the controller has reason to believe that any return so made does not give a complete and correct value of such railroad or telegraph property, he, with the assistance and advice of the attorney general and treasurer of the state, has power to assess it. Upon completion of the assessment, the proportion properly credited to each county, city, and incorporated town is certified to the county assessor, and upon the values thus ascertained and apportioned taxes are assessed the same as upon the property of individuals.

There is no state board of equalization. The board of commissioners of each county acting as a county board of equalization annually equalizes the assessment of real estate, and causes the assessor to correct all mistakes and inaccuracies, and thereafter to extend the taxes to be raised for state, county, and school purposes.

Under the general laws of the state, the valuation thus assessed and equalized is the basis of all ad valorem taxation within the state, but it appears that a few cities and incorporated towns under special laws elect their own assessors, and seem to have an independent assessment for local taxation. Jacksonville is the only place in the state, however, reporting a local or city assessment differing from that made by the county assessor.

The valuation herein reported is that assessed and equalized for 1890, and includes in personal property a railroad valuation of \$14,877,014, and a telegraph valuation of \$179,515.

AD VALOREM TAXATION.

The taxation herein reported is that levied upon the valuation for 1890. The rate of state taxation on \$1, 6.125 mills, is specifically divided and levied for the following purposes: for general revenue, 4.5 mills; for state immigration, 0.125 mills; for state board of health, 0.5 mills; and for state school fund, 1 mill. The state also levies and collects occupation or business taxes, denominated license taxes. The amount of such taxes in 1890 was \$150,120, but it is not included herein.

The counties levy taxes for general purposes, including ordinary expenses; the erection of bridges and county buildings, and the payment of principal and interest of county indebtedness. They also levy a school tax for tuition and building purposes. The average rate of such county school taxation in 1890 is slightly in excess of 5 mills on \$1 of assessed valuation. In addition to the ad valorem school tax, a poll tax of \$1 each is levied and paid into the county school fund. The amount of such poll taxes has not been reported to this office. Each county forms a school district, and through its school board apportions all school funds.

The valuation of real and personal property, and the taxation for state and county purposes, of all the counties of the state, except Lake and Nassau, are as returned to the controller of the state and shown in his printed report for 1890, corroborated by returns furnished to this office by the officials of nearly every county. The valuation and taxation in the counties of Lake and Nassau are taken from special reports made to this office by the clerk of the county court, as the figures reported for those counties by the controller are for 1889.

The assessment and taxation of the several cities and towns are as returned by municipal authorities, the details not being shown by the controller's report.

For a proper comparison of the total taxation of the two periods, the total of 1880 should be decreased by the sum of \$20,362, the amount of poll taxes included therein, making the total \$584,818.

b Estimated by this office.

c Estimated by this office, the estimate being based upon actual cash receipts of \$25,319.

d Of this amount \$924 was raised by Leesburg school district.

GEORGIA.

ASSESSED VALUATION.

The valuation of property for the purpose of taxation is fixed as of the first day of April every year, and includes all real and personal estate, subject to the following express constitutional and statutory exemptions: all public property, places of religious worship, and places of burial; all institutions of purely public charity; all buildings erected for and used as a college, incorporated academy, or other seminary of learning; the real and personal estate of any public library and of any literary association used by or connected with such library; all books, philosophical apparatus, paintings, and statuary of any company or association kept in a public hall and not held as merchandise or for purposes of sale or gain, provided, in no case the property is used for purposes of private or corporate profit or income.

The term "personal estate" is defined by statute as including all such property as is movable in its nature and everything having value inherent in itself, or the representative of value, and not included in the definition of realty.

Every person and corporation owning taxable property is required to return annually, under oath, all classes of such property at full market value. Such returns, excepting those of railroad, insurance, telegraph, telephone, express, sleeping and palace car companies, which are made to the controller general of the state, are made to the county receiver of tax returns. If, in the judgment of the receiver of tax returns, any property so returned to him is returned below its value, he is required to assess the same within 30 days thereafter, subject, however, to the privilege of the taxpayer to have the matter left to 3 disinterested persons, a majority of whom shall fix the assessment. It is also the privilege of any taxpayer to complain to the receiver of tax returns at any time before the completion of the digest that any return is below the true value of the property, in which case, after proper notice to the person making the return, like proceedings of arbitration shall be had. Similar proceedings are provided for by law relative to the value of any property returned to the controller general.

Several cities under special charter have the right to either adopt the state and county valuation or to make an independent assessment of all taxable property within their limits for the purpose of municipal taxation.

Both the county and the city valuations are herein reported for all cities which appear to have exercised the right of independent assessment.

There appears to be no provision of law for the equalization of property values. The acts of 1874 provide that the receiver of tax returns shall annually lay before the grand jury of his county the returns of the year, and that the grand jury shall, under special instructions of the judge of the superior court, overlook the returns, and, in case of any undervaluation, correctly assess the property according to the market value; and by the acts of 1875 it is made the duty of the controller general, with the sanction of the governor, to correct any mistake in the digest, and to notify the ordinary and tax collector of the county of such mistake and correction.

The valuation herein reported is that returned, assessed, and corrected for 1890 as the basis of state and county taxation, and includes all property in the state subject to ad valorem taxation, except that of railroads. Until 1889 railroad property was subject to taxation for state purposes only. In that year the general assembly provided for taxation upon this class of property for county purposes, and also, by an act approved December 24, 1890, the general assembly still further extended such taxation, so that railroad property has become subject to taxation for all purposes: state, county, and municipal.

It is found impracticable, however, to include railroad values for 1890 in these tables, and such values are not included in the census report for 1880. Their assessed valuation for the two periods is reported by the controller-general as follows: For 1880, \$12,490,525; for 1890, \$38,462,161, an increase during the 10 years of \$25,971,636, or nearly 208 per cent. Including the valuation of railroads, the aggregate assessed valuation of the state for 1880 is \$251,963,124, and for 1890, \$415,828,945, an increase of \$163,865,821, or about 65 per cent.

The report of the controller general shows the following classification of the assessed valuation for 1890:

Total.....	\$415,828,945
Lands and improvements	121,241,352
City and town lots and improvements	103,813,563
Money and solvent debts	38,933,258
Live stock.....	28,130,775
Merchandise.....	20,700,335
Household furniture.....	14,920,637
Banking capital	12,025,205
Cotton mills	8,940,285
Stocks and bonds	7,026,969
Farm implements.....	5,338,952
Shipping	1,132,090
Iron works and foundries	877,501
Mining capital.....	261,338
Railroads.....	38,462,161
Watches, jewelry, and plate	1,421,105
All other personal property	12,603,419

ASSESSED VALUATION AND AD VALOREM TAXATION.

125

AD VALOREM TAXATION.

The taxation herein reported is that levied for 1890, and includes only the ad valorem taxes; poll taxes and special taxes in the nature of licenses and for local improvements upon property benefited being excluded.

The state tax rate is 3.96 mills on \$1 of assessed valuation, levied for the following specific purposes: general fund, 2.7 mills; school fund, 1 mill, and sinking fund, 0.26 mills.

In addition to the taxation for state purposes produced by the above rate and reported in the accompanying table, the state levied an ad valorem tax upon railroad property hereinbefore mentioned, amounting to \$152,310, of which \$38,462 belongs to the school fund.

The taxing power of counties is limited by the state constitution to the following purposes: education, erection and repair of public buildings, maintenance of bridges, support of paupers and prisoners, quarantine, roads, expenses of courts, and the payment of debts. County ad valorem taxation for school purposes is levied only in the 4 counties of Bibb, Chatham, Glynn, and Richmond.

Ad valorem local taxation for school purposes is at present limited to the 4 counties above named, and to the following 22 cities: Americus, Athens, Atlanta, Carrollton, Cartersville, Cedartown, Columbus, Covington, Dalton, Dawson, Elberton, Fort Valley, Griffin, Lumpkin, Montezuma, Newnan, Perry, Rome, Sandersville, Tallapoosa, Way Cross, and West Point.

A poll tax of \$1 each, amounting to \$264,021 in 1890, is devoted entirely to school purposes in the counties where raised. The amount is not herein included.

For a proper comparison of the ad valorem taxation with that of 1880 there should be deducted from the aggregate of 1880 the sum of \$236,948 poll taxes, and there should be added to the totals of 1880 and 1890 \$43,717 and \$152,310, respectively, the state taxation upon railroad property, making the aggregates of taxation for 1880, \$3,013,777; for 1890, \$5,711,990.

The aggregate valuation of the state and of each county and the taxation for state purposes are taken from the report of the controller general; the county taxation and the local valuation and taxation are as returned to this office by the several county and municipal officers.

^a County assessment.^b Estimated by this office.^c Personal property not taxed.

IDAHO.

ASSESSED VALUATION.

The assessment of all taxable property is made as of the second Monday of April in each year or as of the day of assessment, between said second Monday of April and the second Monday of August. With the exception of the property of railroad and telegraph companies situated in more than one county, all property of every description, including moneys, credits, and investments, is assessed by the county assessors. The railroad and telegraph property above excepted is assessed by the state board of equalization.

The following property is exempt from taxation: property used exclusively for public schools and such as may belong to the United States, the state, or to any county or municipal corporation or school district within the state; churches, chapels, and other buildings, with the lots of ground appurtenant thereto and used therewith, belonging to any church organization or society and used for religious worship, and from which no rent is derived, with their furniture and equipments; also public cemeteries; buildings or parts of buildings owned and used by the order of Masons or Odd Fellows, or by any other benevolent or charitable society, exclusively for the purposes of their order and their furniture and equipments; the property of resident widows and orphan children not to exceed the amount of \$1,000 to any one family when their total assessment is less than \$5,000; growing crops; capital stock of corporations where the property of the corporation has been assessed; mining claims, except machinery, property, and improvements upon or appurtenant thereto; public and private libraries; tools of a mechanic, farmer, miner, or prospector, and household furniture of a family or householder not exceeding in value \$200, and possessory rights to public lands.

The assessor is required to exact from each person a written statement, under oath, setting forth specifically all the real and personal property owned by him, or in his possession, or under his control, on the second Monday of April, and as to property not within the state on that day or on the day of assessment. In case such statement is not made, the assessor is required to note the fact on the assessment book and make an estimate of the value of the property of the delinquent, which value must not be reduced by the board of commissioners.

The declared intent of the law is to secure the assessment of all taxable property at its full cash value.

The board of commissioners of each county meets annually in August to examine the assessment book and equalize the assessments. The board has the power to hear and determine all complaints, to cause the assessor to assess any property that may have been omitted, and to correct any valuation by adding or deducting such sum as may be necessary to make it conform to the actual cash value.

To and including 1890 the territorial board of equalization appears to have had jurisdiction only over the assessment of the railroad and telegraph property hereinbefore referred to, and not to have been empowered to equalize other assessments. Since that period, however, the legislature of the state has extended the powers and duties of the state board to include the annual examination and equalization of all assessments.

The value of railroad and telegraph property for 1890, as reported by the territorial controller and herein included with personal property, is \$5,439,677.

AD VALOREM TAXATION.

The taxation herein shown is that levied upon the valuation reported for 1890.

The territorial tax rate for the year is 4 mills on each dollar of valuation, all devoted to general purposes. There is no territorial or state school tax.

The county taxes are levied by the several boards of commissioners. The county school taxation is herein combined with taxation levied by school districts, independent school districts, and boards of education.

The assessment is for the year 1890, as equalized by the county boards, and on this assessment all taxes reported have been levied. The figures have been taken from the general report of the state controller and special reports of county and municipal officers made to this office.

The aggregate taxation of 1880, as reported by the Tenth Census, \$195,887, includes poll taxes amounting to \$9,118, which should be deducted for purposes of comparison, making the total for that period \$186,769.

ILLINOIS.

ASSESSED VALUATION.

The assessment of all taxable real and personal property is made annually as of the first day of May, and includes the following classes: real and personal property, moneys, credits, bonds or stocks and other investments, shares of stock of incorporated companies and associations, and personal property in transit to or from the state, used, held, owned, or controlled by persons residing in the state, shares of capital stock of banks and banking companies doing business in the state, and capital stock of companies and associations incorporated under the laws of the state; but the following property is exempt from taxation: lands donated by the United States for school purposes, not sold or leased; all public schoolhouses; all property of institutions of learning, including the real estate on which the institutions are located, not leased by such institutions or otherwise used with a view to profit; church property actually and exclusively used for public worship when the land is owned by the congregation; lands used exclusively as graveyards or grounds for burying the dead; unentered government lands; all public buildings or structures of whatsoever kind, and the contents thereof, and the land on which the same are located, belonging to the United States; property of every kind belonging to the state; property belonging to any county, town, village, or city used exclusively for the maintenance of the poor; all swamp or overflowed lands belonging to any county so long as the same remain unsold by such county; all public buildings belonging to any county, township, city, or incorporated town, with the ground on which such buildings are erected, not exceeding in any case 10 acres; property of institutions of purely public charity when actually and exclusively used for such charitable purposes, not leased or otherwise used with a view to profit; all free public libraries; fire engines and other implements used for the extinguishment of fires, with the building used exclusively for the safe keeping thereof, and the lot of reasonable size on which the building is located, when belonging to any city, village, or town; market houses, public squares, or other public grounds used exclusively for public purposes; all works, machinery, and fixtures belonging exclusively to any town, village, or city, and used exclusively for conveying water to such town, village, or city, and property which may be used exclusively by societies for agricultural, horticultural, mechanical, and philosophical purposes, and not for pecuniary profit.

The assessment of all classes of property and taxables, except the capital stock of certain companies and associations and the railroad track and rolling stock of railroads which are assessed by the state board of equalization, is made by local assessors. The law requires the assessment to be made at a fair cash value.

The owner is required to list all his taxables annually according to a form prescribed by law, and if he fails to do so, or if, in the opinion of the assessor he has not made a full, fair, and complete schedule, the assessor may examine such owner under oath relative to his property, and proceed to list it, according to his best judgment and information. It appears that the owner, in thus listing his personal property, is called upon to place a value thereon. The assessment of real estate must be determined by the assessor upon actual view of the premises.

In counties under township organization, the assessor, clerk, and supervisor of every township are required to meet on the fourth Monday of June annually for the purpose of reviewing and correcting the assessments in such township.

In counties under township organization the board of supervisors, and in Cook county and all counties not under township organization the board of county commissioners, meet annually in July to assess real estate omitted by the assessor, to hear and determine all complaints as to assessments, and to equalize the valuations between the several cities, towns, and districts. The law provides that the county board shall not reduce the aggregate valuation of the county, as fixed by the assessors, nor increase such aggregate, except in such an amount as may be actually necessary and incidental to a proper and just equalization.

The state board of equalization, consisting of 1 member from each of the congressional districts of the state, meets annually in August and examines the abstracts of property assessed for taxation and equalizes the assessments as between the several counties. The law provides that the board shall not reduce the aggregate valuation of the state, as assessed and equalized by the several county boards, nor increase it, except in such an amount as may be reasonably necessary to a just equalization, and not exceeding in any event 1 per cent of such aggregate.

On completion of its duties the board certifies to the clerk of each county the result of its action, and thereupon the county clerk duly corrects and prepares the assessment rolls for the extension of taxation for all purposes in the several cities, townships, towns, and school districts.

The valuation herein reported is that assessed as of May 1, 1890, and equalized by the county and state boards of equalization and returned to this office by the several county clerks. The aggregate exceeds the aggregate returned by the state board in its published report for 1890 by the sum of \$790,144. This excess is said to be caused by the addition to the assessment rolls, after the report of the state board, of certain property omitted therefrom and to the correction of errors in that report, but no detailed corrections were furnished the Census Office.

The aggregate assessment of the state for each of the 11 years from 1880 to 1890, both years inclusive, as reported by the state auditor of public accounts, has been as follows:

1880.....	\$786,616,394	1886.....	\$793,563,498
1881.....	799,813,566	1887.....	797,752,888
1882.....	809,995,895	1888.....	784,911,874
1883.....	817,904,721	1889.....	792,197,542
1884.....	809,169,803	1890.....	808,892,782
1885.....	798,482,823		

The state board of equalization declares that in 1880 the assessed value of all taxable property was 50 per cent and in 1890 only 25 per cent of its true value, and this declaration should be considered in any comparison of the assessments of the two periods.

The valuation of railroad property and capital stock of corporations, as assessed by the state board in 1890 and herein included, is \$72,974,396 and \$6,671,909, respectively.

AD VALOREM TAXATION.

The taxation herein reported is that levied upon the valuations of 1890.

The total rate was fixed by the proper officers at 36 cents on each \$100 of valuation, of which 22.5 cents was for general purposes and 13.5 cents for school purposes. The amount of such taxation, herein reported as returned by the several county clerks, is for general purposes \$3,642 more and for school purposes \$967 less than the amount actually produced at the rates named.

The county boards of the several counties levy all taxation for county purposes, the aggregate amount of which must not exceed 75 cents on each \$100 of valuation, except for payment of indebtedness existing at the time of the adoption of the present state constitution, unless authorized by a vote of the people. There is no county school tax, the whole amount of county and minor division levy reported being that of school districts and boards of education in cities and incorporated towns.

The detailed taxation has been computed by this office upon rates stated by county and local officers.

The total taxation for 1880, including additional \$5,302,605 taxes levied for township purposes, was \$24,586,018,

as reported by the Tenth Census.

WEALTH, DEBT, AND TAXATION.

ASSESSED VALUATION OF PROPERTY TAXED AND AD VALOREM TAXATION, IN DETAIL: 1890.

a Including Creal Springs village.

INDIANA.

ASSESSED VALUATION.

The assessment of property is made annually as of April 1 by the local assessors, and includes the valuation of all taxable real estate and personal property, the latter term being defined and construed by statute to comprise all household furniture, goods, chattels, and effects of whatever kind; all moneys on hand or on deposit either within or without the state; all rights, credits, and choses in action; all steamboats, sailing vessels, wharf boats, barges, flatboats, canal boats, or other water craft; all money at interest; all bonds or stocks, whether of bodies politic or corporate; all other credits or investments, and the shares of stock of incorporated companies and associations organized under any law of the United States or the state.

Under the provisions of a law passed by the general assembly in 1881, a general assessment of all real estate is made once in 6 years, commencing with 1886, and the valuation thus assessed and subsequently equalized as hereinafter stated, constitutes the basis for the levy of taxation upon this class of property during the intervening period, subject, however, to annual increase for new improvements, buildings, or other structures, and annual decrease on account of destruction of improvements, buildings, or structures by fire, flood, or otherwise.

The taxpayer is required to list annually, under oath, his personal property according to a form provided by statute, and in the year of the sexennial assessment of real estate to list his lands and city, town, and village lots, setting forth the number of acres in each, and such description of location by congressional survey or by metes and bounds as will fully identify each tract or lot.

Under the law, as amended in 1883, the following property is exempt from taxation: property of the United States or the state; property of any county, city, town, or township; lands granted for the use of the common schools as long as the same shall remain unsold; real and personal property of every manual labor school or college incorporated within the state, when used or occupied for the purpose for which it was incorporated, such real estate not to exceed 320 acres; every building used and set apart for educational, literary, scientific, or charitable purposes by any institution, or by any individual, association, or incorporation, or used for the same purpose by any town, township, city, or county, and the tract of land on which such building is situated, also the lands purchased with the bona fide intention of erecting buildings for such use thereon, not exceeding 40 acres; also the personal property, endowment funds, and interest thereon belonging to any institution, town, township, city, or county, and connected with, used, and set apart for any of the purposes aforesaid, and every building used for religious worship, and the pews and furniture within the same, and the lands whereon such building is situated, not exceeding 10 acres, when owned by a church or religious society, or in trust for its use; also every cemetery.

The county board of equalization, composed of the board of commissioners and 4 freeholders, selected from different parts of the county and appointed by the judge of the circuit court, annually revises and corrects the lists or

valuations of personal property, being empowered to either increase or decrease the list or valuation of any person after proper notice and opportunity for hearing. It also has the power to equalize any valuation made by the assessors, and in the discharge of this duty may send for persons and papers. After each sexennial assessment of real estate this board also equalizes the valuation of such property.

The state board of equalization, consisting of the governor, lieutenant general, auditor, secretary, treasurer, and attorney general, annually convenes in June for the purpose of assessing railroad property. In each year of the general assessment of real estate it also equalizes the valuations of such property. The law minutely prescribes the duties of the board and the course of procedure, both as to assessment of railroad property and equalization of real estate valuations. On completion of its labors, the auditor of state certifies its action to the several county auditors as the basis upon which all rates for ad valorem taxes provided for by law are computed and extended.

The valuation herein reported is that assessed as of April 1, 1890, and equalized by the county and state boards of equalization, and includes, with personal property, railroad and telegraph valuations amounting to \$66,904,967, and does not include the gross receipts of insurance, express, telegraph, telephone, and sleeping car companies, upon which the state levies taxation for its use.

AD VALOREM TAXATION.

The taxation herein reported is that levied upon the valuation of 1890.

The rate of tax for all state purposes is 28.5 cents on each \$100 of valuation, specifically applied as follows: to general purposes, 12 cents; to common schools, 16 cents, and to university endowment fund, 0.5 of a cent.

The county taxation herein reported includes not only taxes levied for the county revenue fund or ordinary county purposes, but taxes for county roads and bridges, for the poor, for new buildings, for principal and interest of county debt, and for all other purposes for which the board of commissioners is empowered to levy.

There is no county school tax, all school taxation reported being levied by the townships, cities, and towns for tuition and special school purposes.

Poll taxes, which are levied and applied to state, state school, county, and local school purposes are not herein included. The amount of such taxes actually collected in the fiscal year 1890 and reported by the auditor of state is \$493,500, applied as follows:

To state general purposes.....	\$114,172
To state school purposes.....	114,191
To county purposes.....	150,414
To local school purposes.....	114,723

The valuation of real estate and personal property of the state and of the several counties is as specially reported to this office by state or local officials. The valuation of the several townships, cities, and towns is taken from special returns furnished by the county auditors and local officials.

The taxation is computed upon the valuations at the rates reported for the various classes by the official printed lists of tax rates furnished by the county treasurers.

The total taxation reported for 1880 by the Tenth Census includes poll taxes to an amount unknown, but estimated to be \$400,000, and excludes township and township road taxes then estimated at \$1,500,000.

For a proper comparison therefore of the total taxation in the state for the two periods, the estimated amount of poll taxes, \$400,000, should be deducted, and \$1,500,000 township and township road taxes omitted should be added, making the total for 1880, \$11,943,630.

IOWA.

ASSESSED VALUATION.

The assessment of all taxable personal property and money, credits, annuities, franchises, and investments is made annually as of January 1. Real estate is regularly listed and valued biennially in each odd year, and the law requires it to be assessed at its true cash value, due regard being given to its quality, location, natural advantages, the general improvement of the vicinity, and all other elements of value. In each even year only such real estate is valued as was not included in the previous regular assessment.

The valuation of all classes of property, except sleeping and dining cars and property used in the operation of railways, which are assessed by the executive council, and telegraph and telephone property, which is assessed by the same body acting as a state board of equalization, is assessed by the local assessors.

Every property owner or his representative is required to assist the assessor in listing his property. The property owner is not called upon, however, to place a valuation upon any property or thing taxable, excepting perhaps credits and annuities. The law provides that credits shall "be listed at such sum as the person listing them believes will be received or can be collected thereon and annuities at the value which the person listing them believes them to be worth in money".

The following property is exempt from taxation, and is not included in the assessments: the property of the United States and of the state, including university, agricultural college and school lands, and all property leased to the state; the property of the county, township, city, incorporated town, or school district, and devoted entirely to public use and not held for pecuniary profit; public grounds, including cemeteries; fire engines and any implements for extinguishing fires, with the grounds used exclusively for their buildings; all public libraries, grounds and buildings thereon, the land not to exceed 640 acres in extent, and not belonging to agricultural, charitable, and benevolent institutions; private libraries not exceeding \$300 in value; family pictures, kitchen furniture, beds and bedding requisite for each family; wearing apparel and all food provided for the family; wools shorn from sheep belonging to the person making the list; the polls or estates, or both, of persons who by reason of age or infirmity may, in the opinion of the assessor, be unable to contribute to the public revenue; farming utensils of any person who makes his livelihood by farming and the tools of a mechanic, not in any case to exceed \$300 in value; government lands entered or located or lands purchased by the state and not taxable for the year in which the entry, location, or purchase is made. Under certain conditions

lands planted with forest trees cultivated for timber are exempt for a limited period, and the board of supervisors can also exempt the taxation of any person whose buildings, crops, stock, or other property has been destroyed by fire, tornado, or other unavoidable casualty.

The township, town, and city boards of equalization meet on the first Monday in April annually to equalize the assessments as between individuals. The assessor is required to meet with the local board and make such corrections in the assessment books as the board may direct.

At the annual June meeting of the county board of supervisors, that body, as a county board of equalization, equalizes the assessments as between the several assessment districts, and in so doing may alter the valuation of any class of property in any township, town, or city, but can not increase the aggregate valuation of the county. The attorney general of the state holds that the county board can equalize the valuation of real estate only in the years of regular assessment of such property.

The executive council, constituting the state board of equalization, meet on the second Monday in July in each year in which real property is assessed and equalize the value thereof among the several counties and towns, and on the completion of their duty certify to the auditor of the several counties the result of their action.

Even after the completion of the assessments and equalization by the several boards the county auditor may correct any clerical or other error in the assessments. "Under this provision the auditor is given authority to assess real estate omitted by the assessor". (66 Iowa State Report, 500.)

Upon the valuation thus assessed, equalized, and corrected all ad valorem taxation within the state is levied except that of telegraph and telephone lines and of certain cities under special charter for municipal purposes. So far as reported to this office, the last named exception applies only to the cities of Cedar Rapids, Davenport, Dubuque, Fort Madison, and Keokuk.

AD VALOREM TAXATION.

The taxation herein reported is that levied for 1890, and includes all ad valorem taxation within the state except state taxation upon telegraph and telephone lines amounting to \$19,916 and certain highway taxes hereinafter referred to.

There is no state school tax. The state tax rate for general purposes is 2.5 mills on \$1 of assessment.

The counties levy taxes for several specific purposes besides their ordinary expenses, among the most important being the erection of public buildings, the maintenance of roads and bridges, the support of insane and paupers, the payment of debt, and support of common schools.

Taxation levied in townships, cities, towns, and villages for all other purposes than schools is reported as a municipal levy, but taxes are levied in the several townships for working highways. These taxes are levied by the township trustees and collected by and expended under the direction of the highway district supervisors. Such portion of the tax as may be determined by the trustees is paid in labor. Only the records of the clerks of the several townships show the amounts of this taxation, and as it has been found impossible to secure reliable and complete information relating thereto, such highway taxation is not included herein for 1890. It is believed that it was not included for 1880 by the Tenth Census. The law prescribes null as the minimum and 5 mills as the maximum rate of the tax, so that it is probable that the total amount annually raised in the state and paid in money or labor now exceeds \$1,500,000, and probably amounted to \$1,100,000 in 1880.

The statistics of valuation of the several counties, townships, cities, towns, and villages have been reported to this office by the county auditors and treasurers and by local officials. Nearly the whole taxation of the state for every purpose has been calculated by this office at the rates printed upon the tax bills and furnished by the county treasurers.

The assessment and taxation of telegraph and telephone lines, being fixed by the state board of equalization as the basis for state taxation only, are not included, nor were these figures included in the reports of the Tenth Census.

For a proper comparison of the taxation of the two periods, the total reported for 1880 by the Tenth Census should be increased by \$800,000, the amount of township taxes estimated by the Tenth Census as omitted for that year, so that the total will stand as \$11,061,605.

ASSESSED VALUATION AND AD VALOREM TAXATION.

KANSAS.

ASSESSED VALUATION.

The assessment of all taxable real estate is made by the several township and city assessors as of the first day of March biennially in even years. The law requires that each parcel and lot shall be assessed at its true value in money, to be determined by the assessor from actual view and inspection of the property.

The assessment of real estate thus made stands until the next biennial assessment, subject to additions in odd years of such real estate as shall have become liable to taxation since the last previous listing, and of new buildings or structures of over \$100 in value not previously included, and further subject to such deductions as may be necessary on account of the destruction by fire, flood, or otherwise, of buildings or structures of over \$100 in value, previously included in the assessment.

Chapter LV of the laws of 1887, amending the general revenue law, provides that in cities of the first and second class the council may by ordinance order an assessment of real estate in such cities in odd years, all the provisions of law relating to assessments in even years applying thereto. Taxable personal property is required to be assessed annually as of the first day of March, and as an aid to the assessors in the performance of their duty every owner of such property is required to annually list it under oath and to state its value.

The values so listed are not conclusive to the assessor. Before proceeding to the assessment the several township and city assessors within each county are required to meet at the county seat and then agree upon an equal basis of valuation.

The assessor is required to complete the assessment and to have it filed, in tabular form, in the office of the clerk of the county on or before the tenth day of May in each year. The county clerk is authorized to assess at its true value in money any property which may have been omitted by the assessor and add the amount to the list.

The assessment includes all real estate and personal property except that of railroad corporations used or necessary to be used in the convenient and daily operation of their roads, which property is assessed annually by the state board of railroad assessors. The following property is exempt from taxation: buildings used exclusively as places of public worship, as public schoolhouses, or both, with the furniture and books therein contained, and used exclusively for the accommodation of schools and religious meetings, together with the grounds owned thereby, not exceeding in any one case 10 acres, if not leased or otherwise used with a view to profit; lands used exclusively as graveyards; buildings and parts of buildings belonging to scientific, literary, or benevolent associations and used exclusively for scientific, literary, or benevolent purposes, together with lands, not exceeding 5 acres, occupied by such institutions and attached thereto, if not leased or otherwise used with a view to profit, and all books, papers, furniture, apparatus, and instruments belonging to such association and used exclusively for their purposes; moneys and credits belonging exclusively to universities, colleges, academies, or public schools of any kind, or to religious, literary, scientific, benevolent, or charitable institutions, appropriated solely to sustain such institutions, not exceeding in amount or in income arising therefrom the limit prescribed by their charters; property belonging exclusively to the United States or to the state, county, city, town, or school district except lands bid off for counties or cities at tax sale; works, machinery, and fixtures belonging to and owned by any town, city, or village, and used exclusively for conveying water to such town, city, or village; fire engines and other

implements used for the extinguishment of fires, with the buildings used exclusively for the safe keeping thereof and for the meeting of fire companies, whether belonging to any town, city, or village, or to any fire company organized therein; personal property to the amount of \$200 for each family; wearing apparel of every person; public libraries, and family libraries and schoolbooks of every person and family, not exceeding in value in any one case \$50.

The board of county commissioners of each county is a county board of equalization, charged with the duty of annually equalizing the valuation of personal property and biennially in even years of equalizing the valuation of real estate, having due regard to the relative situation, quality of soil, improvements, and natural advantages possessed by each tract or lot. The county clerk, as clerk of the board, is required to prepare and forward to the state auditor an abstract of the assessments in detail as thus equalized.

The state board of equalization, consisting of the secretary of state, auditor, and treasurer, is charged with the annual equalization of the valuations of all taxable property, including railroads, by adding to or deducting from the valuations such rate per cent as said board may deem equitable. It can not, however, reduce the aggregate valuation of the state. The state auditor is required to report the action of the board to the several county clerks immediately upon its adjournment.

Upon the valuations thus assessed and equalized by the county and state boards all ad valorem taxation within the state is levied.

The valuation herein reported is that assessed and equalized for 1890.

Railroad property is included as personal property in the assessment of both 1890 and 1880, amounting to \$57,866,233 in 1890 and \$20,547,803 in 1880.

AD VALOREM TAXATION.

The taxation herein shown was levied upon the valuation of 1890, poll taxes, special assessments made in cities upon real estate benefited by local improvements, and highway taxes paid in labor not being included.

The rate of state taxation is 4.25 mills upon each dollar of valuation: 3.4 mills for the general revenue fund, 0.4 mill for the state house fund, 0.2 mill for the interest fund, and 0.25 mill for the current university fund. The state tax herein shown is as reported to the Census Office, but it seems slightly in excess of the computation at the above named rate. There is no state or county taxation for school purposes. The taxation for county purposes is levied by the boards of county commissioners.

The several school districts levy taxation for school purposes, including the erection of new buildings, the purchase of sites, and the payment of the principal and interest of school district bonds.

The valuation of the several counties, townships, cities, and towns herein reported is as returned to this office by county and local officials; the state taxation is taken from the report of the state auditor, and all county, municipal, and school district taxation is as returned by county and municipal officers in special reports to this office. In a few counties only the total school district taxation was reported, and in such cases the several townships and cities therein are charged with their proportion thereof, computed at an average rate for the whole county.

The aggregate taxation herein shown for 1880, as stated in volume VII, Tenth Census report, omitted township taxation amounting to \$564,829, which amount should be added for comparative purposes, making the total taxation for that year \$4,979,650.
